

CARD PRODUCTION SERVICE

You wish to create personalized ID cards, but you don't have the necessary equipment? You are faced with an unattainable production deadline and are in dire need of help? *Data Carte Concepts* is here to help you with its card production and equipment rental services!

Thanks to our unmatched expertise in the field of identification, we can help you design and produce any type of ID cards while making sure to honor your deadlines. We carry a wide variety of blank cards, spanning a large range of colors, thicknesses and security features, allowing you to develop the most appropriate product to fit your identification needs.

Data Carte Concepts vows to provide all of its clients with innovative, tailor-made products. By working hand in hand with said clients, we can craft custom packages to fulfill all expectations. And by relying on speedy processes, a great flexibility and grade A materials, we aim for perfection with every production run.

Each client can count on the quality of the final products, but they can also count on our total dedication every step of the way, from template design to information capture and card production per se. From the moment you imagine the outline of your ID cards to the moment where the cards are delivered to your doorstep, *Data Carte Concepts* will assist you with great pleasure and an uncompromising drive toward perfection.

ID CARDS EXAMPLES

Employee ID card

Simple template with photo and signature. The card also includes a standard barcode and a binary barcode.

Membership card

Custom membership card without photo. This card also contains a standard barcode.

Student card

Card template with five variable text fields (Given Name, Surname, Birth Date, Student ID Number and Expiration Date fields on the front side) as well as a variable graphic field (Photograph) and a three-pass pseudo-hologram.

Fidelity card

Custom gift card with magnetic stripe.

Embossed card

Custom embossed card with 3 fields (Number, Name, and Expiration date)

In addition to these models of cards, Data Carte Concepts also designs access cards, reward cards, promotional cards, banking type cards, and phone cards.
